LINESHEET

TREND REPORT

Nature Made

Nature Made is a defining aesthetic in swimwear, rooted in a deeper connection to the natural world, where wellness, sustainability, and quiet intention merge. This shift reflects a cultural pivot toward swimwear that feels crafted, grounded, and attuned to the rhythms of nature, allowing garments to become an extension of a slower, more considered lifestyle.

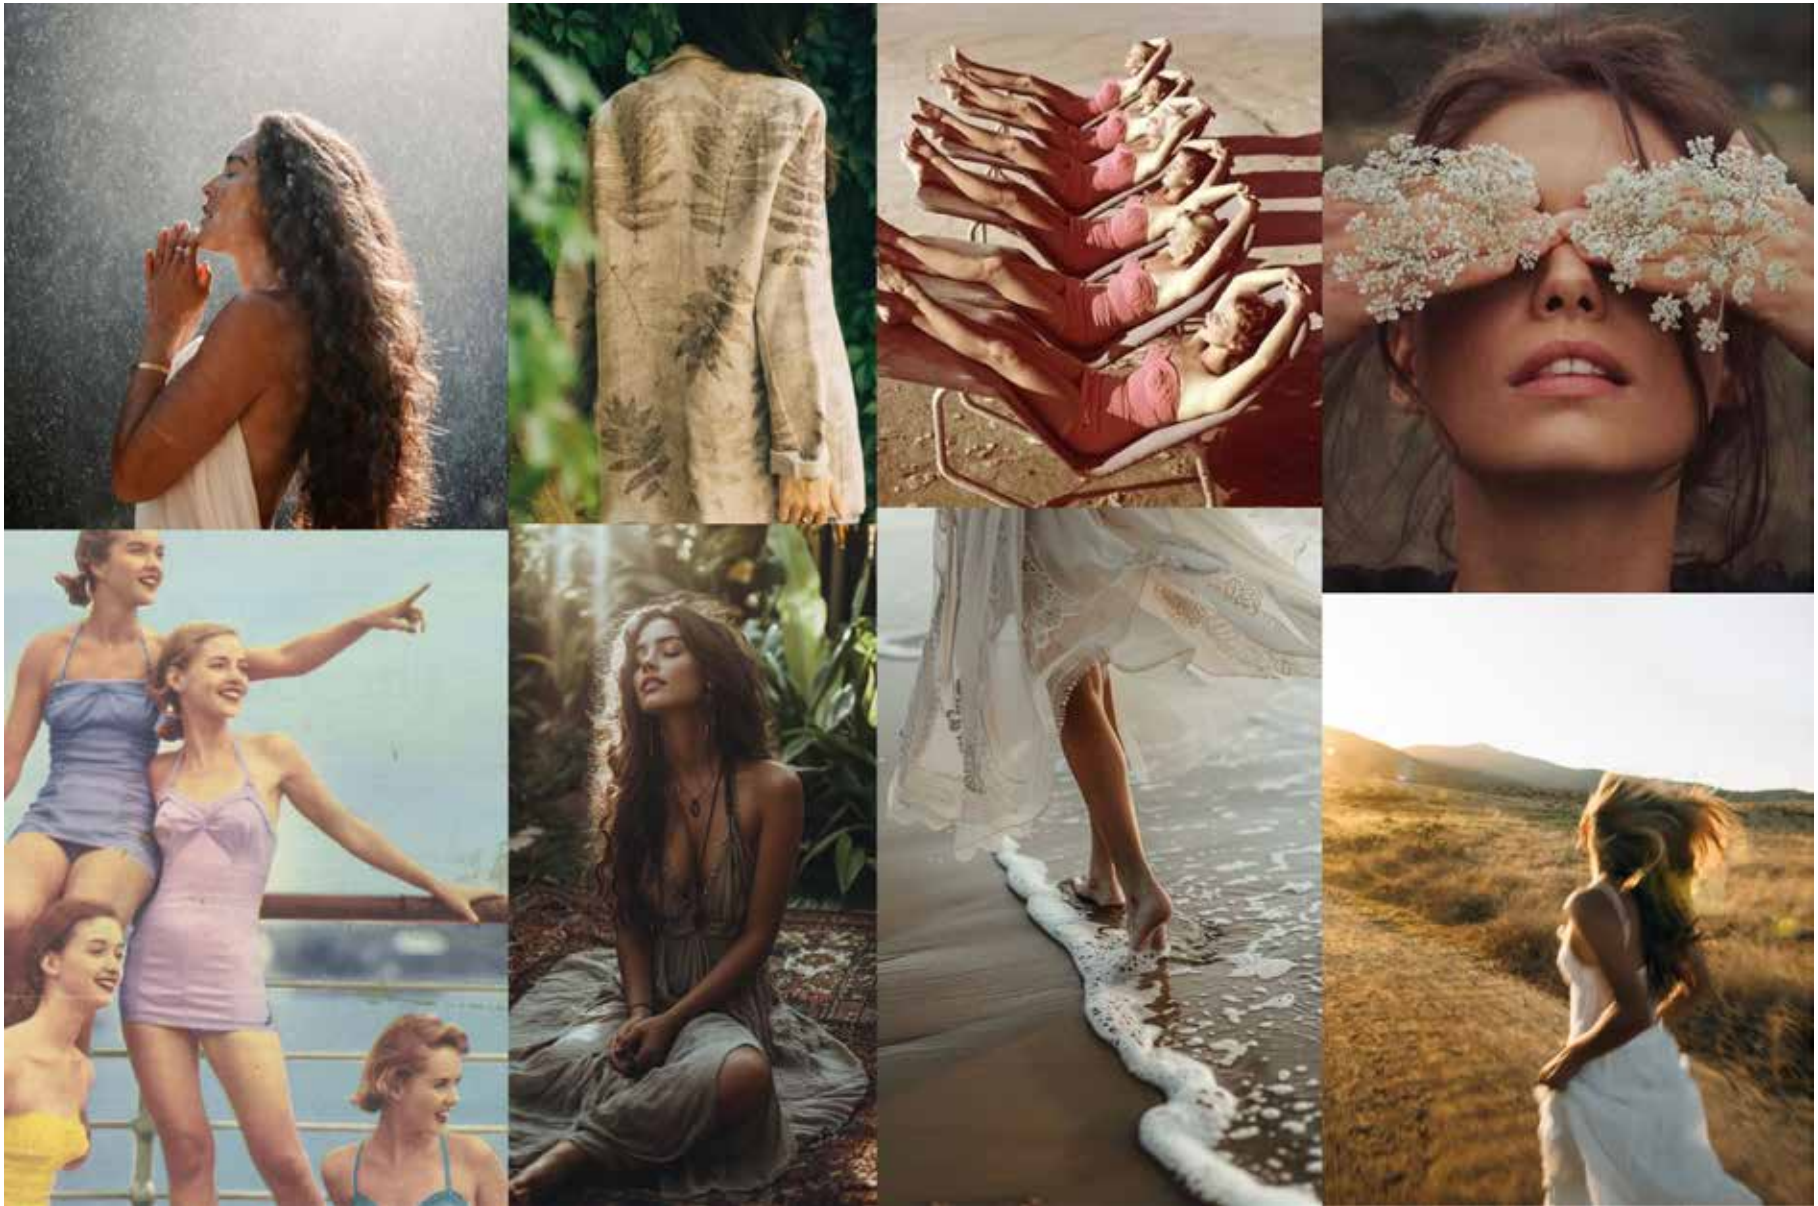

Nature Made draws its inspiration from the quiet intelligence of the natural world. It's ability to regenerate, adapt, and soothe. Rather than mimicking nature, this aesthetic collaborates with it, turning to plant-based dyes, seaweed-infused fibers, and biodegradable blends that feel alive with texture and story.

Color palettes are pulled from soil, foliage, and sunlight-filtered water, while silhouettes honour the body with gentle form and organic shape.

MOODBOARD

Living Nature CR 27

Success is a return to what is real, what is lasting, what feels true.
In the spirit of Nature Made, crafted with care, guided by nature,
and designed with a quiet confidence that never fades.

HOW TO MEASURE

HOW TO MEASURE

Please use a cloth tape measure
to take your measurements.
If you do not have a cloth tape measure,
use a string with a ruler.

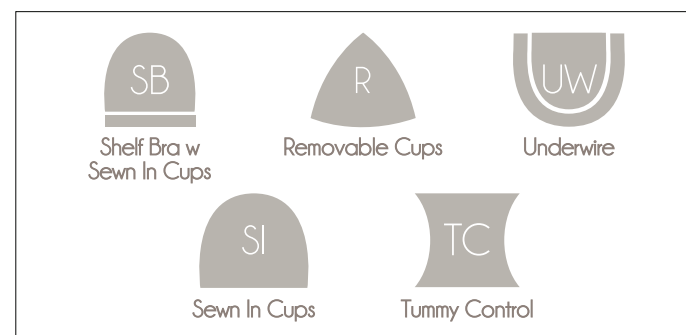

- BUST:** Keeping the tape measure horizontal, place it around the body, under the arms and across the fullest part of the bust. Include the lower portion of the shoulder blades.
- WAIST:** Keeping the tape measure horizontal, place it around the body at the natural waistline; usually the smallest part of the waist.
- HIPS:** Keeping the tape measure horizontal, place it around the body at the fullest part of the hips; approximately 8" below the natural waistline.
- TORSO:** Place the tape measure on the right shoulder midway between the neck base and the shoulder joint, down the back through the crotch and up over the fullest part of the bust to the starting point. Avoid constriction at the crotch.

Please note: The Torso measurement is especially important in determining the right size for a good fitting swimsuit. Interestingly, the torso length has little relationship to a woman's height. A tall woman could have a short torso and long legs and a short woman could have a long torso and short legs.

SIZE CHART

COVER-UPS	XS	S	M		L		XL	
SWIMSUITS	4	6	8	10	12	14	16	18
Bust	35	36	37	38	39.5	41	42.5	44.5
